

Print a monthly calendar

On the dashboard calendar, select **Month**. Use the arrows to choose the month you want. Click the **printer icon** above the calendar, just left of **Month**.

The screenshot shows the Volunteer Corner dashboard. On the left, there are summary cards for 'Total Events' (4) and 'Total volunteers' (1), along with buttons for 'View Volunteers', 'Invite Volunteers', and 'View Analytics'. Below these is a 'Live Updates' section with three notifications about new volunteers signing up. At the bottom left is a 'Pending Attendance' section for the 'Space Centre Volunteering Event' on Sunday, October 18, with a '1 to review' status and a list of attendees including Jimmy Sanders.

The main area is the 'Calendar' for October 2026. It features a header with a printer icon (highlighted with a red box), the 'Month' view selected, and navigation arrows. The calendar grid shows dates from 1 to 31. Two events are visible: 'Space Centre Volunteering Event' on October 18 (1/8) and October 25 (0/8).

Choose how to print or save

In the print preview, choose a printer and click **Print**, or select **Save as PDF** and click **Save**.
